

### PROJECTILE CATCHER

A 5 gallon bucket with a special angled opening for catching used projectiles.

### KEY FEATURES & BENEFITS

- Prevent injury to yourself should contamination be forcefully propelled along with the projectile from the inside of the hose, tube or pipe.
- Allows you to catch and visually ascertain the contamination itself.
- Use it as an indicator to determine the internal condition of the hose, tube or pipe.
- Maintain a clean and professional work space.
- Saves time and cleaning costs by not having to constantly pick up after yourself.
